National Research Council of Italy

Call for Papers

While Grey Literature encompasses all fields of study, over the years a number of areas have been more forthcoming in their production, publication, and uses of grey literature. Together, these underscore the title of GL2020, 'Applications of Grey Literature for Science and Society'. GL2020 is open to all sectors of government, academics, business and industry and welcomes content contributions worldwide. <http://gl2020.cnr.it/cfpa.php>

Why you should submit to GL2020

Grey literature has a long-standing tradition and it is a mosaic of different documentary types: from scientific papers to a wide range of technical or administrative materials, produced by public or private institutions, associations, industries, and foundations at local, national or international level.

In the age of Open Science, which aims to broaden the boundaries of knowledge and make them accessible to the general public, grey literature maintains a crucial role. Indeed, it is inclusive of a wide range of documentary materials that are not always easily accessible. It contributes to the knowledge and deepening of wide-ranging themes of great interest for the citizenry, such as environmental protection, health and justice, bringing to light urgent social needs and priorities.

GL2020 offers an important opportunity to meet an international community that has been studying grey literature and its evolution for decades. The community is large enough to be diversified and lively, but small enough to allow wide interaction between participants and friendly participation in the events offered.

Areas of Interest (Communities of Knowledge and Practice):

- Agriculture, Forestry, and Fisheries
- Economics, Information science, Legal issues
- Bio-Medicine, Health Science
- Earth Sciences, Environment, Natural Resources
- Other fields related to Grey Literature
